

## Flat Copper Drain With Strainer

### Description

The [Flat Copper Drain with Strainer](#) is engineered for optimal performance and durability. Crafted from high-quality copper with a flat flange design, this drain ensures a secure fit and long-lasting resilience. The integrated stainless steel strainer effectively prevents debris from clogging the system, making it ideal for both residential and commercial applications.

**Available Sizes:** 2", 2.75", 3", 3.75", 4", 4.75", 5", 5.75", 6"

Whether you are renovating a kitchen, bathroom, or industrial space, this versatile drain is designed to meet your needs with precision and reliability.
