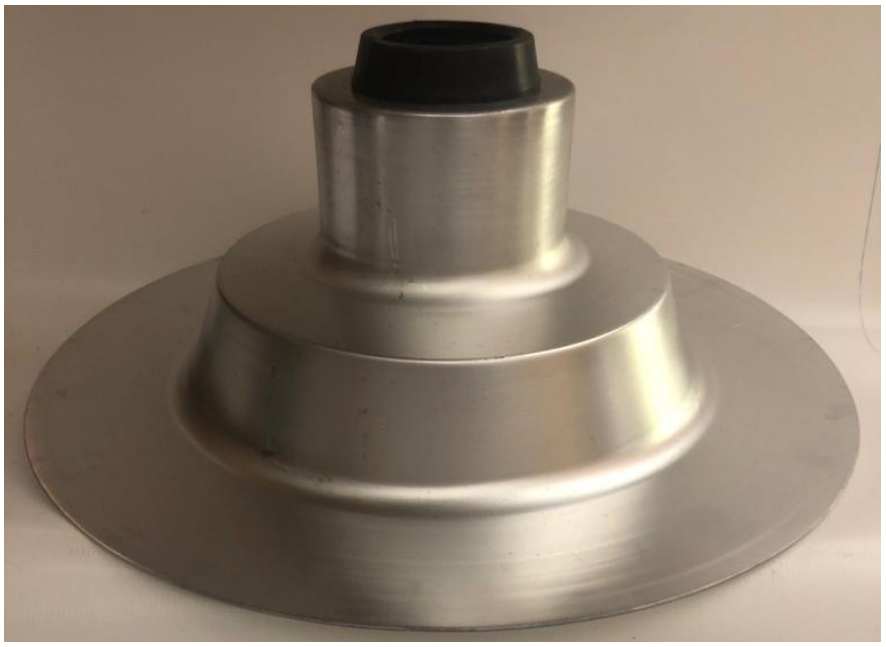
Anchor Flashing With Grommet



1.Seamless Spun Aluminum Vent

2.EPDM Rubber Grommet

DESCRIPTION :

Description : 3" - 4" Inverted Anchor Flashing

FEATURES & BENEFITS

- Designed roof anchors for inverted roofs. A maintenance free, long-term solution to flashing rigid pipes and conduits penetrating low slope roofing systems.
- Ideal for either retrofit or new construction applications with varying sizes of roof anchors for 3" & 4".
- 21.5" overall Width.
- 8.5" high with rubber grommet.

Inverted Anchor Flashing Use:

- Plumbing Exhaust Pipes
- Exhaust Vents
- Gas Pipes
- Electrical Conduits
- Liquid Transfer Pipes

Seamlessly spun from aluminum Anchor Flashing consists of a base flange that is flashed into the roof membrane and with a specially designed rubber grommet. Pipe insulation is optional.
